PROFILE

Full Stack Engineer with 3.5+ years of experience building scalable SaaS platforms, AI-powered applications, and enterprise software. Experienced across the complete product lifecycle with expertise in TypeScript, NestJS, React, Next.js, PostgreSQL, Redis, and AWS, delivering scalable backend systems and modern web applications.

CORE SKILLS

- **Front-end:** React · Next.js · Typescript · Redux · Zustand · Tailwind · shadcn/ui · Remix
- **Back-end:** Node.js · Nest.js · Express · Firebase · GraphQL
- **Cloud & DevOps:** Docker · AWS · EC2 · S3 · SQS · Lambda · NGINX · CI/CD
- **Database:** PostgreSQL · MongoDB · Redis · Prisma · Sequelize · Drizzle
- **Architecture:** RBAC · BullMQ · RabbitMQ · Pub/Sub · WebSockets · MQTT

PROFESSIONAL EXPERIENCE

Full Stack Developer - Transcodezy IT Solutions

Jul 2025 – Present

- Designed and developed Amazon marketplace synchronization systems for product catalogs, variants, inventory, orders, and publishing workflows.
- Reduced Amazon catalog synchronization from 24+ hours to under 3 hours and built a validation engine supporting tens of thousands of product-type schema rules.
- Delivered AI-powered catalog management, synchronization recovery, and distributed backend services using NestJS, PostgreSQL, Redis, BullMQ, Docker, and AWS.

Full Stack Developer - Implies Solution

Jun 2024 – Jul 2025

- Developed enterprise SaaS products across AI, IoT, logistics, and healthcare using NestJS, Next.js, PostgreSQL, Redis, MQTT, and WebSockets.
- Built multi-tenant architectures, real-time communication systems, logistics workflows, and geospatial mapping solutions across enterprise SaaS products.
- Improved application performance by migrating to Next.js, achieving 95+ Lighthouse scores, and building recommendation engines and reusable platform modules.

MERN Stack Developer - Object Infotech

Jan 2023 – Jun 2024

- Developed full-stack applications for e-commerce, content management, and digital publishing using React, Node.js, Express, MongoDB, GraphQL, and TypeScript.
- Built scalable REST and GraphQL APIs, database models, administration systems, and core business workflows for production applications.
- Collaborated across frontend and backend development while strengthening expertise in software architecture, database design, and full-stack engineering practices.

EDUCATION

Bachelor of Computer Applications

Amity University · CGPA: 8.45/10
